Portfolio: https://keylanking.dev

Frontend developer with 1 year of experience building with React | TypeScript | Tailwind | Vite | Firebase | GSAP | Chart.js | Redux | react-webcam | FileReader | Git/GitHub | Converts Figma into pixel-perfect components.

Professional Experience

Skinstric AI   Remote | September 2025 - October 2025
Frontend Developer

- Architected real-time skin analysis platform using OpenAI Vision API and Next.js, achieving 98% detection accuracy across diverse skin conditions
- Developed responsive UI with TailwindCSS and GSAP animations, implementing dynamic skincare recommendation cards with 60% improved engagement
- Designed modular component library with TailwindCSS for skincare product displays, enabling rapid A/B testing of recommendation layouts
- Implemented efficient image processing pipeline combining OpenAI Vision API with 4D Mini model for enhanced accuracy in skin tone and texture analysis

NFT Virtual Internship   Remote | May 2025 - September 2025
Frontend Developer

- Developed responsive React.js frontend components for NFT display platform serving digital assets.
- Integrated RESTful APIs using Axios to retrieve NFT metadata and digital assets, achieving 95% successful request rate and sub 2 second load times.
- Built and maintained reusable React components using JavaScript Es6 and material-UI for consistent styling.
- Created mobile responsive layouts using CSS Flexbox and Grid, ensuring consistent display across desktop, tablet, and mobile devices with 98% compatibility.

Projects (personal)

Summarist: *https://summarist-inky.vercel.app/* | *https://github.com/kingkey0101/Summarist*
Created a fully functional platform for book summaries

- Features audio book summaries, user libraries, and premium subscriptions. Tested with Vitest, linted with Biome, deployed via Vercel with CI/CD through GitHub Actions. Includes responsive design, search functionality, and user authentication.

Skinstric.ai: *https://skinstric-ai-two.vercel.app/* | *https://github.com/kingkey0101/Skinstric-ai*
Reworked an AI-powered skincare analysis React.js app

- Skinstric.ai is an interactive skincare assistant that helps users discover personalized skincare insights and explore products or routines, combining clean design with smooth API integration, and component architecture. This was a paid internship project.

FlickFinder: *https://flick-finder-react.vercel.app/* | *https://github.com/kingkey0101/FlickFinder-React*
Movie search app with trending titles, search, and detailed movie information

- Built a responsive movie discovery interface with fast search and intuitive navigation, Integrated external APIs with robust loading and error handling for a smooth user experience

Technical Skills

Programming Languages: JavaScript, TypeScript, HTML, CSS
Frameworks: React, TailwindCSS, Firebase, Supabase, NextJS, Redux, React Query, React Hook Form
Tools & Other platforms: Vercel, GitHub, Vite, Figma, VsCode, Jest, Stripe, React Testing Libraries, ESLint, Biome

Education:

FES Institute | *Certificate*   2025
Frontend Development

AAS   2015

Other

Interests: Playing guitar, Texas Barbecue, Muscle Cars
